SHOW COUNTRY'S PROSPERITY

RECEIPTS AT POST OFFICES LARGELY INCREASE.

The Salaries of More Than Half of the Postmasters in the Presidential Class Will Be Raised-How the Increase Varies in Different Sections

WASHINGTON, Aug. 2.—One financial barometer of the country is the increase or decrease of the receipts at the post offices, and according to the statement of the annual readjustment of postmasters' salaries on the basis of office receipts, just completed at the Post Office Department, there is such prosperity throughout the land as has never before been recorded.

Under the readjustment made a year ago the increase of receipts at 2,070 of the 4,740 presidential offices justified an increase in the salary of the postmasters, the rate of increase being 43.6 per cent On the readjustment just completed the rate of increase was 50.5 per cent.

In other words, the salaries of 2,416, or more than half of the 4,783 offices of this class, will be raised during the year just begun. The actual amount of increase is \$295,100, to which should be added the \$65,100 increase at 332 fourth class offices which have grown into presidential offices making a total of \$360,200 more to be paid in salaries this year than last. At 260 offices the receipts fell off sufficiently to cause a decrease of \$32,400 in salaries, so

that the net increase will be \$227,400.

The highest percentage of increase falls to Indian Territory, 132 per cent., with Idaho second with 119 per cent., and North Dakota third with 116, while Connecticut brings up third with 116, while Connecticut brings up
the rear with an increase of but 23 per cent.
New England is the only section of the
country which falls below the average percentage, the six States in that division showing an average increase of only 36.8 per cent.,
and but for 52 per cent. returned by Rhode
Island would be much lower.

The average increase for the Middle
Atlantic States is 56.4 per cent., of which
Mayland contributes 76 per cent. with no
office showing a decrease. The increase
for New York, 55 per cent., is above the
average for the entire country.
The seven Southern States, Virginia,

The seven Southern States, Virginia, North and South Carolina, Georgia, Florida, Alabama and Louisiana, have an average of 70 per cent. increase, which is nearly 20 per cent. above the general average. The middle West, including West Virginia, Ohio, Tennessee, Kentucky, Indiana, Illinois, Michigan and Wisconsin, have an average of 59.1 per cent., while the States on the other side of the Mississippi, including Minnesota, Iowa, Missouri, Arkansas, Oklahoma, Indian Territory, Kansas and Nebraska, increased only 63.2 per cent., notwithstanding the high percentage for Indian Territory.

Quite a contrast is shown between the latter, with 132 per cent., and her neighbors, Kansas, with 59 per cent., Nebraska with 32 per cent., and Texas with only 40 per cent., while Oklahoma, with its "boom" growth, returns only 70 per cent.

returns only 70 per cent.

Perhaps the highest sectional average is that of the three Pacific Coast States of Oregon, with 87 per cent., Washington with 73 per cent., and California with 58 per cent., making an average of 72.6 per cent.

As a result of the readjustment just completed 125 offices will be advanced from the third to the second class, including Richfield Springs, Cuba, Lowville.

ing Richfield Sorings, Cuba, Lowville, Greenport, Glen Cove, West Seneca, Mumford and Woodside, N. Y., and Belmar, Bound Brook and Lambertville, N. J. Twenty-four offices will be transferred from the second to the first class, including New Rochelle, N. Y., and Passaic and Rutherford, N. J., and five offices go to the \$4,000 division of the first class. Three offices are relegated to the third from the second class and two drop from the first to the second, while at twenty-two the receipts have fallen off to such an extent that they go out of the presidential class.

The statistics as to rural free delivery routes and the effect of their establishment upon the postal revenues have not vet been completed by the Department, but it is known that the number of routes approximates 16,000. The last report on the subject was on Oct. 15 last, which in-cluded two and a half months of the year just ended. The number in operation on that date was 11,199, and in the year ended that date had resulted in the abolition of 2.149 fourth class post offices and 1,668

This percentage, it is expected, will be maintained during the fiscal year just ended. There seems no doubt that the establishment of free delivery increases the amount of mail matter handled, and this is particular reacting, daily newspapers. larly true regarding daily newspapers which are taken more extensively in the country along rural delivery routes than they were before the routes were established.

PARK DEPARTMENT IS IN \$365 Gets a Road Scraper Cheap Because of

The Park Department of The Bronx recently succeeded in purchasing a \$375 road scraper for \$10, and R. T. Geldhart, who is an agent for farm machines at 54 Beaver street, doesn't like to think about it

Agent's Error in His Estimate.

Park Commissioner Eustis of The Bronx advertised a few weeks ago for a certain road scraper which picks up papers, stones and all small rubbish. Geldhart saw the call for bids, and either he or his clerk got the impression that the demand was for a small \$10 scraper which they have for sale, so he put in his bid for \$10. When Commissioner Eustis got Geldhart's reply he thought at first that some practical joker was having fun with him, but when he recalled that Geldhart was the agent for the machine the department wanted he wrote that the bid had been accepted.

When Geldhart learned what kind of machine was called for he pleaded error, but was informed that his bid had been offered in the regular way, and that he must make good, or pay the difference, \$365, to the city. The machine is now in service in the parks of The Bronx.

PHYSICIAN WAS CAREFUL. His Explanatory Note Causes Investigation

of Dr. Hawker's Death. Coroner Jackson was called upon yesterday to investigate the circumstances of the death of Dr. Benjamin Hawker of 141 East Fifty-second street, which occurred on Friday last. Dr. Augustine A. Wolfe of 603 Lexington avenue made out a certificate, giving the cause of death as diabetic coma, and added a note at the bottom which called attention to the fact that Dr. Hawker had been assaulted on June 27 last. Because of the note the Board of Health rejected the certificate.

Coroner's Physician Weston found that Dr. Hawker, who was 66 years old, had recovered from the effects of the asscult and that he had been suffering from diabetes for several years, so he gave a burial per-

Dr. Wolfe told Dr. Weston that he called attention to the assault so that no question would be raised as to the cause of death

The August Sale of Furniture

This is the opening gun of the August Furniture Sale. The mere general announcement, made on Saturday, that the greatest furniture occasion of the year had begun, was sufficient to attract hundreds of interested house-furnishers, present or prospective.

But today we proceed to details, in the forefront of which comes this most important announcement of about Thirty-five Thousand Dollars' worth of Fine Parlor Furniture at precisely half its value. The furniture is the handsomest and finest that one of the very best and longest established manufacturers produces; and comes to us by virtue of one of the happy trade incidents which enter so largely into the success of this movement. You may have

seen the equals of these pieces on our floors at full prices—you will see their likes again, also at full prices, when this Sale is over. Now you can have them for half. A remarkable feature of the offering is scope and variety. Hardly two suites or pieces are alike. It is therefore important to be prompt to secure first choice of the fine pieces. Included are-

Three and Five-piece Suites, in mahogany, imitation mahogany and gold frames. Easy Chairs, in leather and other materials. Corner Chairs. · Odd Sofas. Parlor Chairs. Reception Chairs.
